

# TMAC Progress Report

June 21, 2021

# Purpose

## Stratham Hill Park

Rare & valued resource. Backbone of the community.

## Management Plan

The group is charged with providing concrete feedback and a work plan structure for SHP to ensure it is protected in perpetuity.

## Community Support & Enjoyment

Including the public in the management of this kind of resource is challenging but necessary for getting community buy-in. With multiple user groups (sometimes conflicting) it becomes imperative that we include as many stakeholders in the process as possible.

# Progress

## Trail Maintenance

Meeting with Lew Shelley to review the Trail Inventory Report.

Site walk at SHP to observe trail conditions and examples of those mentioned in report for more comprehensive understanding.

## Rules & Regulations

Complete review of the rules and regulations for all ownership/parcels within the Stratham Hill Park area. As noted, the ownership and varying rules/regs are complex and take time to understand.

## Conservation

The group has thoroughly reviewed the various parcels and ownership within the greater SHP area and have identified areas for further protection.

## Stratham Hill Park Trail Condition Map (based on Report by LS)

## Stratham Hill Park Ownership Map

Maps to assist in understanding management complexities

# Timeline

Apr-June '21

## Information Gathering

Understanding the complexities of properties/ownership & rules and regulations.  
Understanding condition of existing trails.

June '21

## Status Update to Select Board

Provide update/timeline to Select Board based on committee's efforts to date.

August '21

## Public Forum

Structured information gathering session with the public. Limited speaking time per each suggested topic.

Data collection on demographics.

October '21

## Proposed Rules and Regulations

Target of October Take a Kid MTB'ing Day as sharing information on proposed rules/regs.

Data collection on demographics.

December '21

## Final Public Forum and presentation

Provided information gathering goes well, suggested timeline for a final public forum and presentation.
