To Whom It May Concern:

On May 28, 1976 the students of Strayham Memorial School buried a "Time Capsule" in honor of the Nation's Bicentennial Celebration.

It is hoped that the capsule will be retrieved in the year 2016, on the occasion of the Town of Strayham's 300th Birthday.

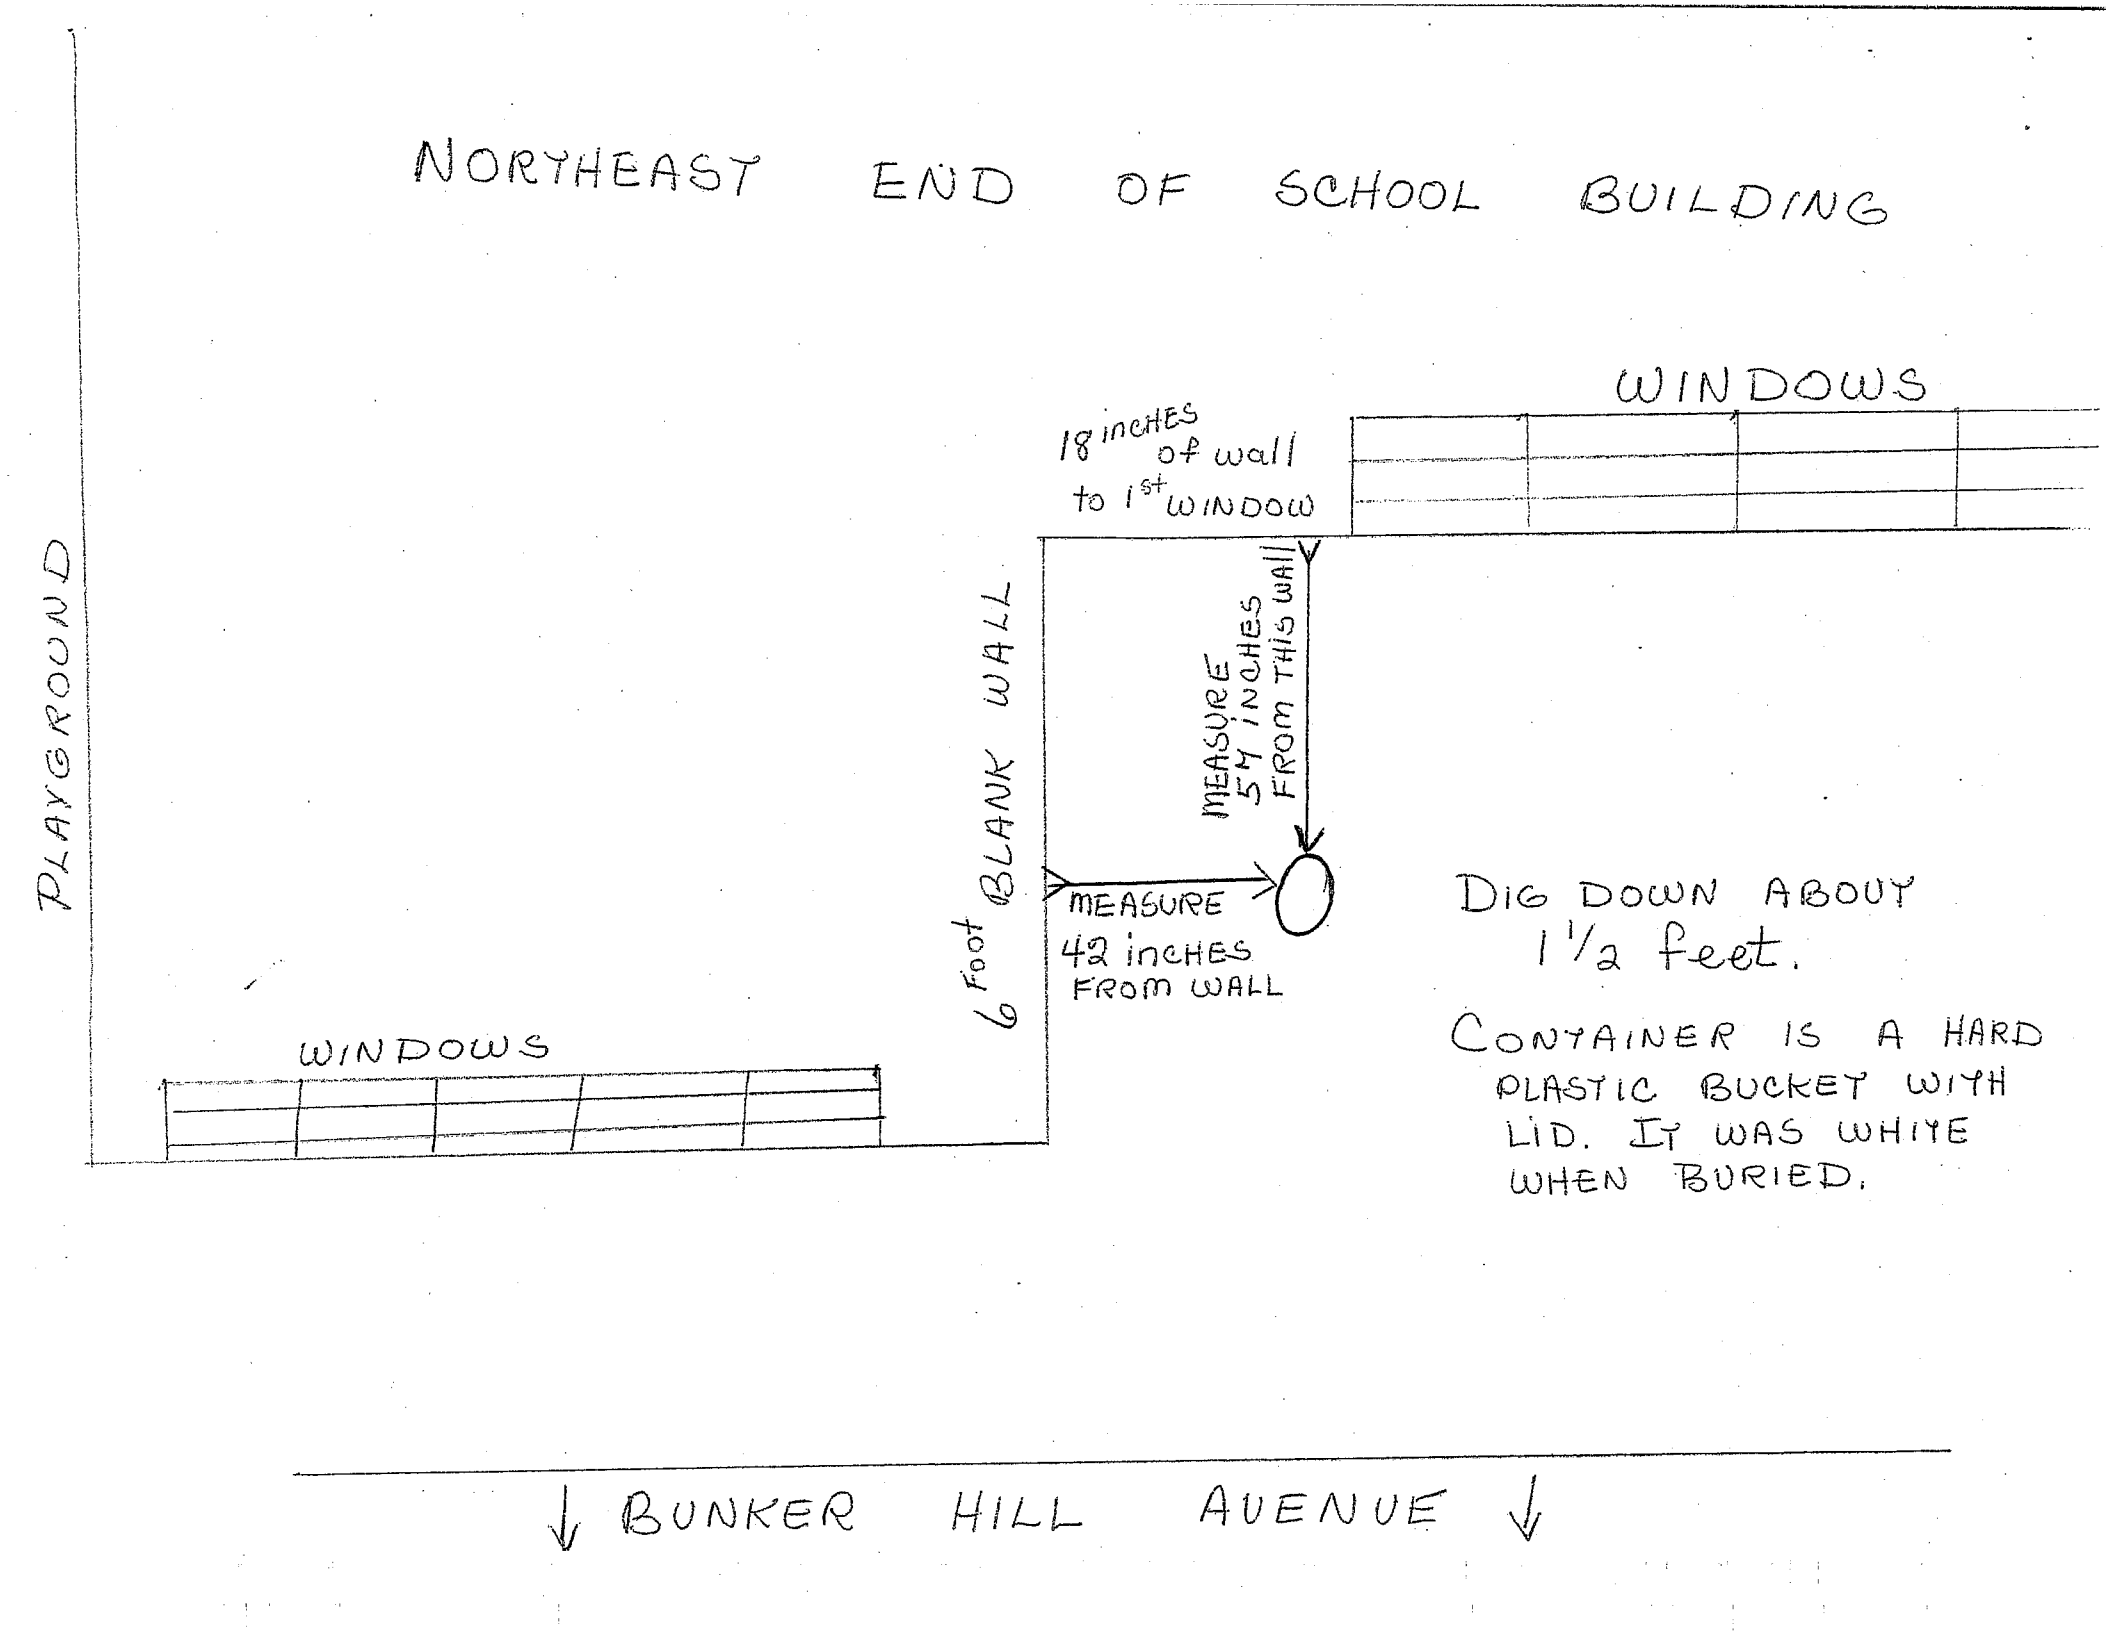

The capsule is buried at the North-East end of the building (facing Bunker Hill Ave.).

It has been placed in the corner where the building juts out about six (6) feet.

The attached diagram should help to facilitate finding its location.

Our good wishes to all of the residents of Strayham in the year 2016. It is our hope that some of our students are still in the area to enjoy this day.
