

# Septic System Vulnerability Assessment Public Outreach Event

FB Environmental will present the results of a septic system vulnerability assessment for the Town of Stratham, highlighting wastewater management options based on the environmental risks associated with septic systems.

**September 18, 2025**

**6:00 - 7:00 PM**

**Town Hall - The Hutton Room  
or virtually via Teams\***

**\*see town website for Teams link**

**We want  
YOUR input**

**SEPTIC SYSTEM** - treats wastewater on-site. Solids are filtered in the tank and effluent is dispersed into the ground for natural filtration of bacteria.

**This project was funded by a PREPA grant from the Piscataqua Region Estuaries Partnership (PREP), with support from the United States Environmental Protection Agency through the Infrastructure Investment and Jobs Act.**
