This application is hereby made for the installation or modification of a Fire Alarm System and/or UL monitoring equipment. The Stratham Fire Department requires certain information prior to the installation. Design, installation and testing shall conform to NFPA 1, NFPA 70, and NFPA 72 editions as adopted by NH State Fire Code and local ordinances.

INFORMATION REQUIRED:

Submit COMPLETE set of electronic plans in PDF format. "Complete" means that the plans and applications shall be accompanied by the following:

- Letter from the designer that plans meet all requirements of NH State Fire code as adopted including NFPA 1, NFPA 70, and NFPA 72 and local ordinances.
- All information regarding the system:
 - See supplemental "General Information for Fire Alarm Designers / Installation Contractors / Technicians" Available on the Town of Stratham's Website

IMPORTANT NOTE: Dependent on the scope of work a review may be required by a Fire Protection Engineer (FPE) before acceptance by the Bureau of Fire Prevention. Reviews by NH registered professional engineers with a specialty in Fire Protection only are acceptable. All documents must be reviewed and stamped by the FPE to be considered a complete application.

Approved plans must be on file with the Stratham Fire Department and a permit issued BEFORE installation work begins. Failure to obtain a permit before installation begins may lead to fines.

The Department shall be notified of and review any deviations from the approved plan before final testing. Prior to acceptance by the Stratham Fire Department, a signed Record of Completion shall be submitted.

All inspections require a minimum of 48 hours advance notice by the Installer. A Fire Official shall witness any operational and final tests as required. The Official shall not perform the test. The installer shall provide adequate manpower and equipment for such test.
