RE: Sign Installation and Maintenance Request

Mr. Lambert,

The Town of Stratham requests permission by the New Hampshire Department of Transportation to install 12' galvanized U channel posts with (2) 30" x 30" retroreflective signs to promote motorist awareness and provide bicyclists greater safety when cycling throughout the Town of Stratham. We would like to install these signs on the following streets with the following quantities.

Squamscott Road 2 locations
Bunker Hill Avenue 4 locations
Winnicut Road 4 locations

The Town of Stratham will purchase and install all the materials necessary to complete the request as well as complete any maintenance to these signs or u channel posts required going forward. I have attached a map of the requested locations.

Below please find the two signs the Town of Stratham would like to install t each location along with a 12' galvanized u channel post.

If you have any questions let me know. I appreciate you time and consideration.

Respectfully,

Colin P. Laverty
Director of Public Works
