

SURVEY REQUEST INFORMATION

Town of Stratham Skatepark

Location is TBD (Stevens Park or Stratham Hill Park)

Due date for completed survey: February 11th, 2019

Scale for survey: 1" = 20'

Information to be included in the survey:

1. Lot size verification: Traverse closure calculations for all lots not rectilinear in shape. Include bearings.
2. Right-of-way: Show adjacent streets along entire front of property line. Including edge of pavement, dimension curb and gutter, parking strips and existing sidewalks. Show line of curb on opposite side.
3. Utility information: Utility poles, guy lines, vaults, overhead lines, underground cables (where known, fire hydrants, pole lights, street signs, drainage structures, cleanouts, boxes, monuments).
4. Topography: Contours at 2 foot intervals, spot elevations, building finish floor elevations, spot elevations at property line, spot elevations at existing trees (see planting below). TS/BS, TW/BW, TC/BC, RES.
5. All structures and key improvements (including but not limited to the following):
 - Existing buildings: outline of footprint
 - Walks, patios, fences, raised planting beds, driveways, parking areas, ramps
 - Fences, walls, utility areas, outbuildings
6. Planting:
 - All tree canopies, maybe stylized.
 - Limits of large areas of lawn, hedge masses, outline of shrub masses not contained in beds.
7. Other features:
 - Perimeter of pools and ponds.
 - Centerline and top and bottom of banks of creeks
 - Rock outcrops.
 - Top and bottom of banks and slopes.
