

Winter/Spring 2020

### **Contractor Letter of Introduction**

The intent of this letter is to keep Eversource Energy customers informed about electric system work being conducted in your area. As part of our everyday effort to deliver reliable energy and superior customer service, Eversource Energy will be performing inspections on our existing transmission infrastructure. Please note that this work will not affect your electric service.

Eversource has contracted with the following industry professionals as part of this work:

- Mesa Associates, Inc.

MESA personnel, who may be visible to you within the powerline corridor or nearby roadways, are authorized to carry this letter of introduction during the course of these inspections which will begin in March of 2020 and continue in various locations throughout the year.

Keeping the lines of communication open is an important part of our work in your community. If you have any questions or would like additional information about this work, please call the Eversource Transmission Hotline at 1-888-926-5334 or email us at [NHProjectsInfo@eversource.com](mailto:NHProjectsInfo@eversource.com).

Thank you in advance for your patience and cooperation during this effort.

Sincerely,

Roy Fruit  
Eversource Siting and Construction Services Specialist
